

# Antonija Šimić

React developer, Google Ambassador, Founder  
Zagreb, Croatia, UTC+2

## 1. About me

I am a great software developer who possesses a combination of technical skills, problem-solving abilities, and interpersonal qualities that enable me to excel in field.

## 2. Social

## 3. Experience: React and Angular

### Casumo | '22- '23

<https://casumo.com/>

A significant portion of my role involved a major migration project, transitioning the existing codebase from Knockout.js to React. This initiative aimed to harness the power of React's component-based architecture, fostering a more maintainable, modular, and efficient codebase.

### Formunauts | '20- '21

<https://app.formunauts.com/>

During my time at Formunauts, I had the fantastic opportunity to dive into Angular development for the company's platform. My primary role centered around architecting a robust communication framework between the Angular-based user interface and the Raisenow API, which shares similarities with Stripe.

### Async labs | '19- '20

<https://www.asynclabs.co/>

I had the privilege of contributing my skills as a sole developer to their projects, primarily focusing on <https://revuto.com/>. My responsibilities extended across multiple layers of development, employing technologies such as Axios, interceptors, React Context, and more.

### Craftstrom | '18 - '19

<https://craftstrom.com/>

I was fortunate to serve as a React Native developer, a role that allowed me to immerse myself in the world of mobile app development. At the core of my responsibilities was the design and implementation of the app's user interface, a task that required leveraging the capabilities of libraries such as react-native-elements and react-native to ensure a seamless and visually appealing experience for users.

## 4. Other experiences

### OPX | '21- '22

<https://www.opx.org/>

I had the exciting responsibility of shaping the visual identity and user experience of the website. My primary focus was on delivering a clean and maintainable CSS architecture that ensured consistency, responsiveness, and an engaging design throughout the platform.

### Code Institute | '18- '20

<https://codeinstitute.net/global/>

My engagement with Code Institute, a distinguished Irish coding bootcamp, has been a fulfilling journey of mentorship and fostering the growth of aspiring developers. As a mentor, I've had the privilege of guiding students in their coding endeavors, with a primary emphasis on elevating the quality of their projects.

### Upwork | '15- '18

My responsibilities encompassed translating design mockups into pixel-perfect HTML, CSS, and JavaScript implementations, ensuring that the essence of the visual concepts was faithfully retained in the digital realm. I took pride in not only bringing clients' ideas to life but also in enhancing user experiences through intuitive and interactive web elements.

## 5. What else is interesting about me?

### CSS meetup | '19- '20

[meetup.com/S\\_CSS\\_Zagreb/](https://meetup.com/S_CSS_Zagreb/)

I was a co-organizer of CSS meetup group in Zagreb. We were meeting once a month. I was often a speaker

### Kodiraonica | '21- '22

<https://kodiraonica.dev/>

I am the founder of a coding school in Croatia specializing in teaching a range of programming languages, including HTML, CSS, JavaScript, React, and C#. This initiative showcases my commitment to fostering programming education and expertise in web development technologies.

## 6. Where can you see my code?

### Duga | '23

[github.com/tonkec/duga\\_frontend](https://github.com/tonkec/duga_frontend)

[github.com/tonkec/duga\\_backend](https://github.com/tonkec/duga_backend)

React, Node, Sockets

### Time tracker

[github.com/tonkec/time\\_tracker](https://github.com/tonkec/time_tracker)

React, Redux, Redux Toolkit Query

### CSS art

[codepen.io/collection/AywEyO](https://codepen.io/collection/AywEyO)

Several of my pens were featured on the front page of codepen
