Email: antonija1023@gmail.com

A self-taught Senior React Developer with 10+ years of experience designing performant, scalable web & mobile apps in fintech, iGaming, SaaS, edtech, and digital agency environments.

Known for translating designs into clean, user-empathetic interfaces, optimizing API flows, mentoring 100+ junior developers to elevate standards, and identifying top performers to accelerate their careers.

I thrive in environments that value autonomy, ownership, and speed of iteration, while holding myself accountable to high standards of quality and user impact. Fostering inclusive, growth-oriented teams, I embrace remote-first culture, async collaboration, and commitment to diversity and representation.

Experience

FunderPro

09/2023-PRESENT. REMOTE

Senior React Developer

- Developing and continuously improving new features for a Cyprus-based fintech platform, including its affiliate system, coupon creation, and flows for KYC & enhanced user sign-up.
- Modernizing the app's UI & UX to make them more intuitive using CSS and insights gained from user interviews.
- Reducing API call redundancy by 40% using React Query.
- Hosting weekly knowledge sharing sessions to empower three front-end developers to wield React, TypeScript, JavaScript, and ReactQuery to accelerate new feature development.

Casumo

07/2022-02/2023. REMOTE

Senior React Developer

- Improved an iGaming app's authentication & authorization flow by implementing Keycloak to strengthen security for end-users.
- Migrated key modules from the legacy WordPress/KnockoutJS to React, accelerating page load times by 35%.

Formunauts

01/2020-01/2021.
VIENNA/HYBRID

Angular Developer

- Designed a scalable and reliable communication layer between an Angular-based front-end & the Raisenow API to streamline a philanthropic fintech company's app and simplify donation gathering in the field for fundraisers.
- Wrote unit tests using Jest to extend their coverage by 90%.

AsyncLabs

01/2019-01/2020. ZAGREB

React Developer

- Optimized API flows using Axios Interceptors to fast-track perceived speed by 20% for a subscription management crypto wallet.

Senior JS & Product Developer/Instructor

- Created 50+ immersive explainer videos to equip an edtech platform's users with full-stack development expertise.
- Refactored the platform's CSS architecture and introduced SCSS to improve readability & scalability.
- Taught 500+ learners to solve problems and gain a coder's perspective, and prepared them to pursue competitive roles using a hands-on mentorship style in virtual and on-site formats.

TrueLoyal (Formerly Known As Tint)

06/2015-02/2017. REMOTE

UI Developer

- Translated a community-powered social media marketing platform's Figma designs into pixel-perfect, responsive layouts using semantic HTML and modular SCSS.

Education

University of Zagreb

Master of Arts in Comparative Literature

Skills

Expertise: Front-End Architecture | Responsive UI Development | Performance Optimization | API Integration & Optimization | Authentication Flows | Migration from Legacy Systems | Agile | Software Development Lifecycle

Tools: React | React Native | Redux | TypeScript | React Query | JavaScript | Node.js | Ruby on Rails | Axios | RTL (React Testing Library) | Figma-to-Code Translation | Keycloak | Git | Modular CSS/SCSS

Interpersonal: Leadership | Cross-Cultural Communication | Public Speaking | Cross-Disciplinary Dialogue | Mentorship & Coaching | Creative Problem-Solving | Remote Team Management | C-Suite Advisory | English & Croatian (Bilingual) | German (Basic)
